Summary

Front-End Developer with 2+ years of experience building responsive, high-performance web applications using React.js and Next.js. With an strong background in UI/UX, which helps me turn design principles into intuitive, user-centered interfaces while writing clean, reusable, and scalable code

Professional Experience

Front-end Developer

2026/02 - 2026/06

- Sepehrgan
- Developed responsive web applications using Next.js in an Agile team environment.
 - Optimized performance through code splitting, lazy loading, and efficient state management.
 - Built reusable components to ensure code consistency and accelerate development.
 - Applied UI/UX design expertise to enhance usability and improve user flow.
 - Collaborated with designers and backend developers to deliver user-centered, scalable solutions.

Front-end Developer

2025/09 - 2025/12

- Apanco
- Built scalable applications with React.js while taking greater ownership of projects.
 - Improved application architecture and performance for faster, more efficient delivery.
 - Applied UI/UX design expertise to enhance user experience and interface usability.
 - Delivered maintainable, high-quality solutions with a focus on clean, scalable code.
 - Through collaboration with the front-end team, user-centered and scalable solutions were delivered.

Projects

To Do List

2025/07 - 2025/08

- Self Project
- Implemented local state management for real-time updates.
 - Built a task management application with add, edit, and delete functionality.
 - Practiced component-based architecture with Next.js.
 - Designed a clean and modern user interface for daily task tracking.
